

***Family Options Counseling, LLC***  
***Social Skills Program for Kids***

**Social Skills Group Schedule**

This therapeutic group will allow your child to learn and practice social skills that are used daily at home and in school settings. This group is designed to allow youth to practice the skills in group by the use of games, role plays, and activities. The youth will enhance their skills while having fun.

It is important that your child attend all the group therapy sessions as many skills build upon each other. It is also important that the youth arrive on time for these sessions. During the course of treatment, we encourage parents and caregivers to contact the therapists with any questions, concerns, or feedback regarding their child's struggles and successes:

Ms. Carrie Imoehl, MS, LPC, NCC
