

## ***Family Options Counseling, LLC ASAP Connect Schedule***

Children and adolescents are at an increased risk to become victims of human trafficking. This can occur through direct contact or via the internet through social media and video sites. The ASAP Connect counseling program is designed to offer education, resources and support with the aim to reduce the risk and occurrence of commercially sexually exploited children and adolescents.

The ASAP Connect groups are brief groups with targeted outcomes. Individual and family therapy services will also be incorporated as needed.

An intake session is required to determine appropriateness for the group.
